

High Power 24x7 working JAMMER

Location you can install it :-

Hospitals, theaters, recording studios, banks, contact tendering room, churches, conference rooms, classrooms, security services, military units, secret services, news conference rooms, libraries, museums, prisons, court room, customs, auditoriums, cinema halls Etc....

Jamming distance (coverage):-

JAM 40-50: For GSM cellular systems with **CDMA module**, up to 40-50 meters radius coverage.

- **Remarks:** The above jamming distances are for reference only; actual jamming distance will be varied depending on the type and location of cellular system.

Specifications:

Available country & area		Europe, Asia, Middle East, Africa, etc.
Frequency band		CDMA 800, GSM 900/1800/1900
Effective Range	JAM 40-50	Up to 40-50 meters radius, depending on the strength and type of cellular system
Power		10w
Power Source		AC 220V 50Hz or DC 5V switching power adaptor
Antenna		External
Size		L 210 x W 50 x T 170 mm
Packing		Remote, Adaptor, 4 Antenna

Available cellular system:-

Port	Jamming Frequencies	Avg. Output Power	Output Frequencies
CDMA	800 (870-880 MHz)	35dbm (3w)	5dbm/100 KHz(min)
GSM	900 (930-960 MHz)	35dbm (3w)	5dbm/100 KHz(min)
DCS	1800 (1805-1850 MHz)	33dbm (2W)	2dbm/100 KHz(min)
PHS	1900 (1900-1980 MHz)	33dbm (2W)	2dbm/100 KHz(min)
3G	(21110-2170 MHz)	33dbm	2dbm/30 KHz(min)
