

Motion Detection Hidden Table Clock Camera

Specifications

Motion Detection Hidden Table Clock Camera

- 1.30fps
- 2.5M pix Picture pixels
- 3.Motion detect function

Features:

- * Multi-functional clock camera
- * Video resolution:640*480
- * Video frame rate: 30fps
- * Picture format: JPG 1280*960
- * Picture pixels: 5M pix
- * Support large-capacity TF card
- * Built-in High-capacity lithium polymer
- * Motion detect function

Specifications:

Video format	AVI
Video encoding	M-JPEG
Video resolution	640*480 VGA
Video frame rate	30fps
Picture format	JPG
1280*960	JPG 1280*960
Picture pixels	5M pix
The ratio of image	4:03
Supporting system	Windows me/2000 XP 2003/vista:M
Battery capacity	300mAh
Working hour	About 120 minutes
Charge pressure	DC-5V
Interface type	MINI 4pin USB
Storage support	TF card
Battery type	High-capacity lithium polymer
